Projects

Albion Online Tool

Google Play Store - Albion Online Tool

An app that uses third-party API to obtain and display data from a game.

- Developed using React Native
- Debugged the app using an Android emulator and unit testing
- Deployed to Google Play Store using Expo

React Native | Axios | Sass | HTML5 | CSS3 | JavaScript ES6

MultiStep Form

multiform.jesusbmj.com

Created a simple form that consists of multiple steps, essential breaking down a long-form for a simpler feel.

- Utilized React to transition and validate forms
- Material-UI was used for textboxes and containers

React.js | Material-UI | Sass | HTML5 | CSS3 | JavaScript ES6
